\* - Daily Charter Rates

Charter costs are subject to exchange variations and subject to change without prior notice.

Charters may be subject to either national and / or local taxes.

Crew gratuities are not included (10% recommended)

The question often arises 'how much?' Our reply is that this should reflect the standard of service you have received, remembering that the crew are on duty before you wake and after you retire. Their day is never-ending. We suggest in the region of 10%.

However, you may have received exceptional service and in such case deem that a higher gratuity be made. We suggest that whatever the sum is you wish to make that this is handed to the Captain to be distributed to all members of the crew.
